

This Reconciliation Action Plan has been developed to act on the commitment the Australian Nursing Federation (ANF) made in June 2007 to work to address the inequalities experienced by many Aboriginal and Torres Strait Islander people and to help achieve self-determination and health equality for Indigenous people.

This Reconciliation Action Plan is part of the Australian Nursing Federation Strategic Plan and acts on the vision articulated in that plan to influence nursing, health, and social justice policy. The development of this Reconciliation Action Plan represents an important strategic objective for the ANF.

Progress on the Reconciliation Action Plan will be reported to the ANF Federal Council on an annual basis. The ANF will also provide an annual progress report to Reconciliation Australia. This annual report will be publicly available on the ANF Federal Office website: <http://www.anf.org.au>.

Vision: The ANF vision for reconciliation is self-determination and health equality for Aboriginal and Torres Strait Islander people.

Mission: The ANF mission for this Reconciliation Action Plan is to work toward reconciliation with Aboriginal and Torres Strait Islander people and to close the gap in health outcomes between Indigenous and non-Indigenous Australians.

Objectives: The objectives of this Reconciliation Action Plan are for the ANF to demonstrate leadership to, and foster understanding within, nursing and midwifery and the wider community about the importance of working with Indigenous communities toward reconciliation and to help close the gap in health equality.

1. CONSULT WITH OTHERS	ACTION	WHEN	BY WHOM	OUTCOME (KPI)
1.1	Work with Indigenous people to develop a greater understanding of Indigenous culture within the ANF and its members.	Review annually	All ANF Federal Office teams, including: elected officers, staff and nominated representatives	Articles published in the Australian Nursing Journal at least three times a year.
